Fire Safety (Cooking Safety)

Almost half of all home fires start in the kitchen.

- Do not put anything metallic in the microwave and always double check the timer.
- Avoid cooking under the influence of alcohol or drugs.
- Never leave cooking unattended. Stay in the kitchen while cooking and turn off the stove before you leave.
- Flammable materials such as aerosols, cleaning agents and cooking oils should be store away from heat.
- Keep matches out of reach of children.
- Turn pot handles inwards.
- Keep loose clothing, fabrics, tea towels, curtains and flammable items away from the stove.
